NOTICE OF APPROVAL**Project 25 ETHICS-211: Development of a Pediatric IV Flow-Rate Monitor for Humanitarian Settings**

Dear Mr Catarci,

Your above proposal has been reviewed by the ETH Zurich Ethics Commission. Based on this review, the Vice President for Research of ETH Zurich approves it without reservations.

Unanticipated Problems and Adverse Events: If any study subject experiences an unanticipated problem involving risks to subjects or others, or a serious adverse event, the Ethics Commission must be informed promptly.

Amendments: Any change in the design, conduct, duration, or key personnel of this research must be submitted as an amendment and approved by the Ethics Commission prior to implementation.

If you have any questions about this matter, please visit the human research [website](#) or contact the office of the Ethics Commission by phone or email ethics@sl.ethz.ch.

Kind regards,

Prof. Christian Wolfrum
Vice President for ResearchProf. Lutz Wingert
Chair Ethics Commission
